PeaceHealth SW Medical Center/Family Medicine of SW Washington

PGY2 Ambulatory Care Pharmacy Residency Program

VANCOUVER, WASHINGTON

Meet Our Team

The PeaceHealth Southwest ambulatory care pharmacy team is comprised of ambulatory care clinical pharmacists, most of whom have completed ambulatory care PGY2 residencies themselves, who are dedicated and enthusiastic about precepting, expanding ambulatory care services, and developing the next generation of ambulatory care pharmacists. The primary site of practice, PeaceHealth Family Medicine of Southwest Washington, is a community-based University of Washington School of Medicine-affiliated medical residency program. Washington state scope of practice allows pharmacists to become credentialed to bill for services and to practice under collaborative drug therapy agreements, which allow pharmacists to practice at the top of their license while exercising prescriptive authority for a wide range of disease states with independent clinical decision making.

Peace Health

Our Mission

We carry on the healing mission of Jesus Christ by promoting personal and community health, relieving pain and suffering, and treating each person in a loving and caring way.

PeaceHealth Southwest Medical Center

is located in Vancouver, Washington and are part of the Portland, Oregon metropolitan area. Bordered by the Columbia River, the Cascade mountain range and Portland to the south, Vancouver and surrounding Clark County enjoy some of the most scenic recreational areas in the world. Vancouver is one of the fastest growing cities in the country and the medical center thrives on providing comprehensive care to the community. The training program emphasizes the goal of developing exceptional ambulatory care pharmacists who can practice in a variety of clinical settings.

Residency Information

- **Appointment:** Twelve-month residency
- **Stipend:** Approximately $85-95,000
- **Staffing:** 20 days providing clinic coverage (Mon-Fri, 8-hour shifts)
- **Other Benefits:** medical, dental, vision, life, and disability insurance available; seven paid holidays; ten days paid time off, plus up to three days for education leave/interviews and three additional sick days if necessary.

Practice Area Rotations

Our program features a robust ambulatory pharmacy practice setting that encompasses key elements of primary care pharmacy practice. There are two primary care clinics for longitudinal continuity experiences, each served by two full-time pharmacists that independently manage drug therapy under extensive collaborative drug therapy management agreements and bill for services provided.

Ambulatory Care Clinic Experiences

- Anticoagulation
- COPD/Spirometry
- Diabetes
- Hepatitis C
- HIV/PrEP
- Hypertension, CV risk reduction
- Obesity/Weight management
- Pain Management
- Polypharmacy
- Smoking cessation management in Pulmonary specialty clinic

Longitudinal Experiences

- Administration
- Billing and Credentialing
- Drug Information
- Leadership Development
- Major Project
- Medicare Annual Wellness Visits
- Opportunities to enhance or establish pharmacy services
- Practice Management
- Teaching/Precepting
