

Analytic Case Statistics for 2008
5 most common sites by stage group
n = 386

Stage Definitions

In-Situ: Means “in place”, or the presence of malignant cells within the cell group from which they arose, no invasion.

Local: An invasive malignant cancer confined to the organ of origin.

Regional: A malignant cancer that 1) has extended beyond the limits of the organ of origin directly into surrounding organs or tissues; 2) involves regional lymph nodes by way of lymphatic system; or 3) has both regional extension and involvement of regional lymph nodes.

Distant: A malignant cancer that has spread to parts of the body remote from the primary tumor either by direct extension or by discontinuous metastasis to distant organs, tissues, or via the lymphatic system to distant lymph nodes.

Stage 99/ 88: Staging is unknown. Staging is not applicable
