

Paul Schneider, MD, Emergency Department director at St. John Medical Center (left); and Cathy Barr, executive director of St. John Medical Center Foundation (right); join Jean McCrimmon as she presents a check for \$11,200 from the Weyerhaeuser Company Foundation.

# Building a healthy hospital

**A**s a medical center, St. John cares for you when you're injured or ill. But it's also there to provide emotional support when you're diagnosed or during treatment and to educate you about prevention and care.

We're constantly updating and improving our state-of-the-art facilities and community programs, and we've focused our most recent efforts on hospital renovation, cancer programs, and women's health.

The renovation is a large undertaking on behalf of this community. A five-year, \$46 million project, it will encompass all eight floors of the hospital. New features will include larger

rooms, new technology, and a compassionate healing environment.

Generous gifts from our staff and Foundation Board of Directors, Governing Board, the Friends of St. John, and the community at large are significant, but support from corporations and foundations is also vital to our success.

Foundations come in all shapes and sizes, from local foundations that are familiar with the departments being renovated to large foundations interested in learning more about our community commitment. These foundations often pay us a visit before considering our request. When they do, they like what they see.

It's good to be good. Studies show a correlation between altruism and happiness, longevity, and health. If you would like to be a part of improving your medical center, please call **(360) 414-7900**.

Join us!

The partnerships we form enhance the programs and the patient care at St. John Medical Center. In fiscal year 2006, corporations and foundations donated \$187,500 to promote care in the community.

Donor	Program	Amount
