you need

The Health Care Foundation matches St. John Medical Center dollars

Troubled economic times mean more Americans are finding it difficult to get the healthcare they need. As American Medical Association President Dr. J. Edward Hill has said, "We have wonderful technology and poor access. We need to solve the problem of access..."

When people have access to healthcare, they begin to enjoy a better quality of life. They can also return to work and care for their family members because of their stronger physical condition and mental well-being. They can once again be productive members of our community.

The Health Care Foundation and St. John Medical Center have found ways to collaborate and use philanthropy to help improve access to healthcare during these tough economic times. The Health Care Foundation has awarded a \$70,000 Matching Grant to St. John to provide sponsorships to community members who qualify for the Basic Health Plan but who cannot afford the modest premiums.

St. John Medical Center has been commended on a statewide basis for its strong management of the Basic Health Care Plan in our service area. We have also been commended for the Sponsorship Program, which is a logical expression of the mission of St. John Medical Center.

- St. John Medical Center
- Workplace Wellness Services
- Broadway Campus
- Women's Health Pavilion

Directions: From Interstate 5, north or south, take exit 36 (Longview/Long Beach exit) over the Cowlitz River to Hwy. 432, which becomes Tennant Way. Turn right on 15th Avenue. Turn left on Delaware for parking.
