

Honoring caregivers

On March 30, National Doctor's Day, the nation takes time to acknowledge and thank all of those men and women who have chosen the field of medicine. Most physicians would tell you it was a calling to help others that led them to their career; the others might say that it was their interest in science.

Whatever their explanation, the physicians in our community are among the very best. The Guardian Angel program allows grateful patients, their families, and friends the opportunity to express their gratitude by giving a contribution to recognize those whose grace and compassion make a positive difference in the experience of St. John patients and their families. Every caregiver has been touched and humbled by your thoughtful and generous contribution.

GIVING IN HONOR OF CAREGIVERS

Any caregiver who touches your life can be a Guardian Angel. Your gift honoring Guardian Angels can benefit any program at St. John Medical Center.

To learn more about the Guardian Angel Program and St. John Foundation, please contact Cathy Barr, Foundation Executive Director:

- Phone: **(360) 414-7900**
