

2022-2025 Community Health Improvement Plan

PeaceHealth Southwest Medical Center

We support the health of all community members. Equity and Health Justice for BIPOC, LGBTQ+, people with disabilities, immigrant and other historically marginalized community members is the focus of our community health work. Each initiative undertaken during the 2022-2025 Community Health Needs Assessment Cycle will reduce the disparities experienced by historically underrepresented community members.

Initiatives	Desired Outcomes	Owner	Partner(s)	Timeline
 Home				
Strategy #1: Respond to the homelessness crisis in Clark County				
a. Increase access to programs that address the immediate needs of unsheltered individuals. (emergency shelter, tiny homes, hygiene, outreach, etc.)	Increase in the number of shelter beds or individuals served by new and existing programs.	Community Partner	Providers of Homeless Crisis Response System	2022-2025
b. Increase access to programs that connect people experiencing homelessness to permanent housing (rapid rehousing, supportive housing, wraparound services, etc.)	Increase in the number of people served by new and existing programs.	Community Partner	Providers of Homeless Crisis Response System	2022-2025
