

Standard 1.8 Monitoring of Prevention, Screening and Outreach Activities

Prevention

March 24, 2016: Dr. Wolgamot, Melissa Haun and Kathy Millson presented “Smoking” to 66 students at Cascade Middle School in Sedro-Woolley. The students were a combination of the last two health education classes. Approximately 60-70 students attended. Discussed what nicotine is, effects on the body, routes into the body.

Nov. 17, 2016: On National Smoke-Out Day, a booth was set up inside the Cancer Center providing information to all visitors/patients about the importance of quitting smoking.

Screenings

Breast cancer
