# Hold on Frontline Workers

By Harold

Hold on to the hope that this will pass quickly

Even if you feel like giving up

Hold onto the tools and equipment that are protecting you

Even if it is hard

Hold onto the hope that the cure is found soon

Even if it means fighting to the end

Hold onto your family and friends

Even if you have to distance yourself

Hold onto your hope and dignity

Even when you think you will fail.

# Thanks

By Riley

Thanks for treating sick people  
Thanks for not letting people die  
If you did not treat sick people,  
I would cry  
You are pretty awesome  
Like the moon in the sky

# Blessing the Frontline

By Karina

Thank you for all that you do.

Your work does not go unnoticed,  
you are so brave.

Even though times aren't the best  
right now, there is still hope.

Keep going. Stay safe and healthy.  
You got this. <3

# ABC's of Thank You

By Nolan

Absent from our normal routine

Best time to think about what matters most

Can't express how thankful I am for all the work you do

Doing your best to save lives and help the sick

Each of you plays an important part

From taking temperatures to giving medicine

Gratitude is definitely due

How do you do it with hardly any sleep

Risking your own health

I pray for you

Thank you

# Blessing the Front Line

What's in hospitals,

Nurses who help patients during the COVID-19,

CNA's exchange information between the providers and the patients.

Support staff members help take care of patient lifting and transportation.

Security ensures that all hospital property is secure.

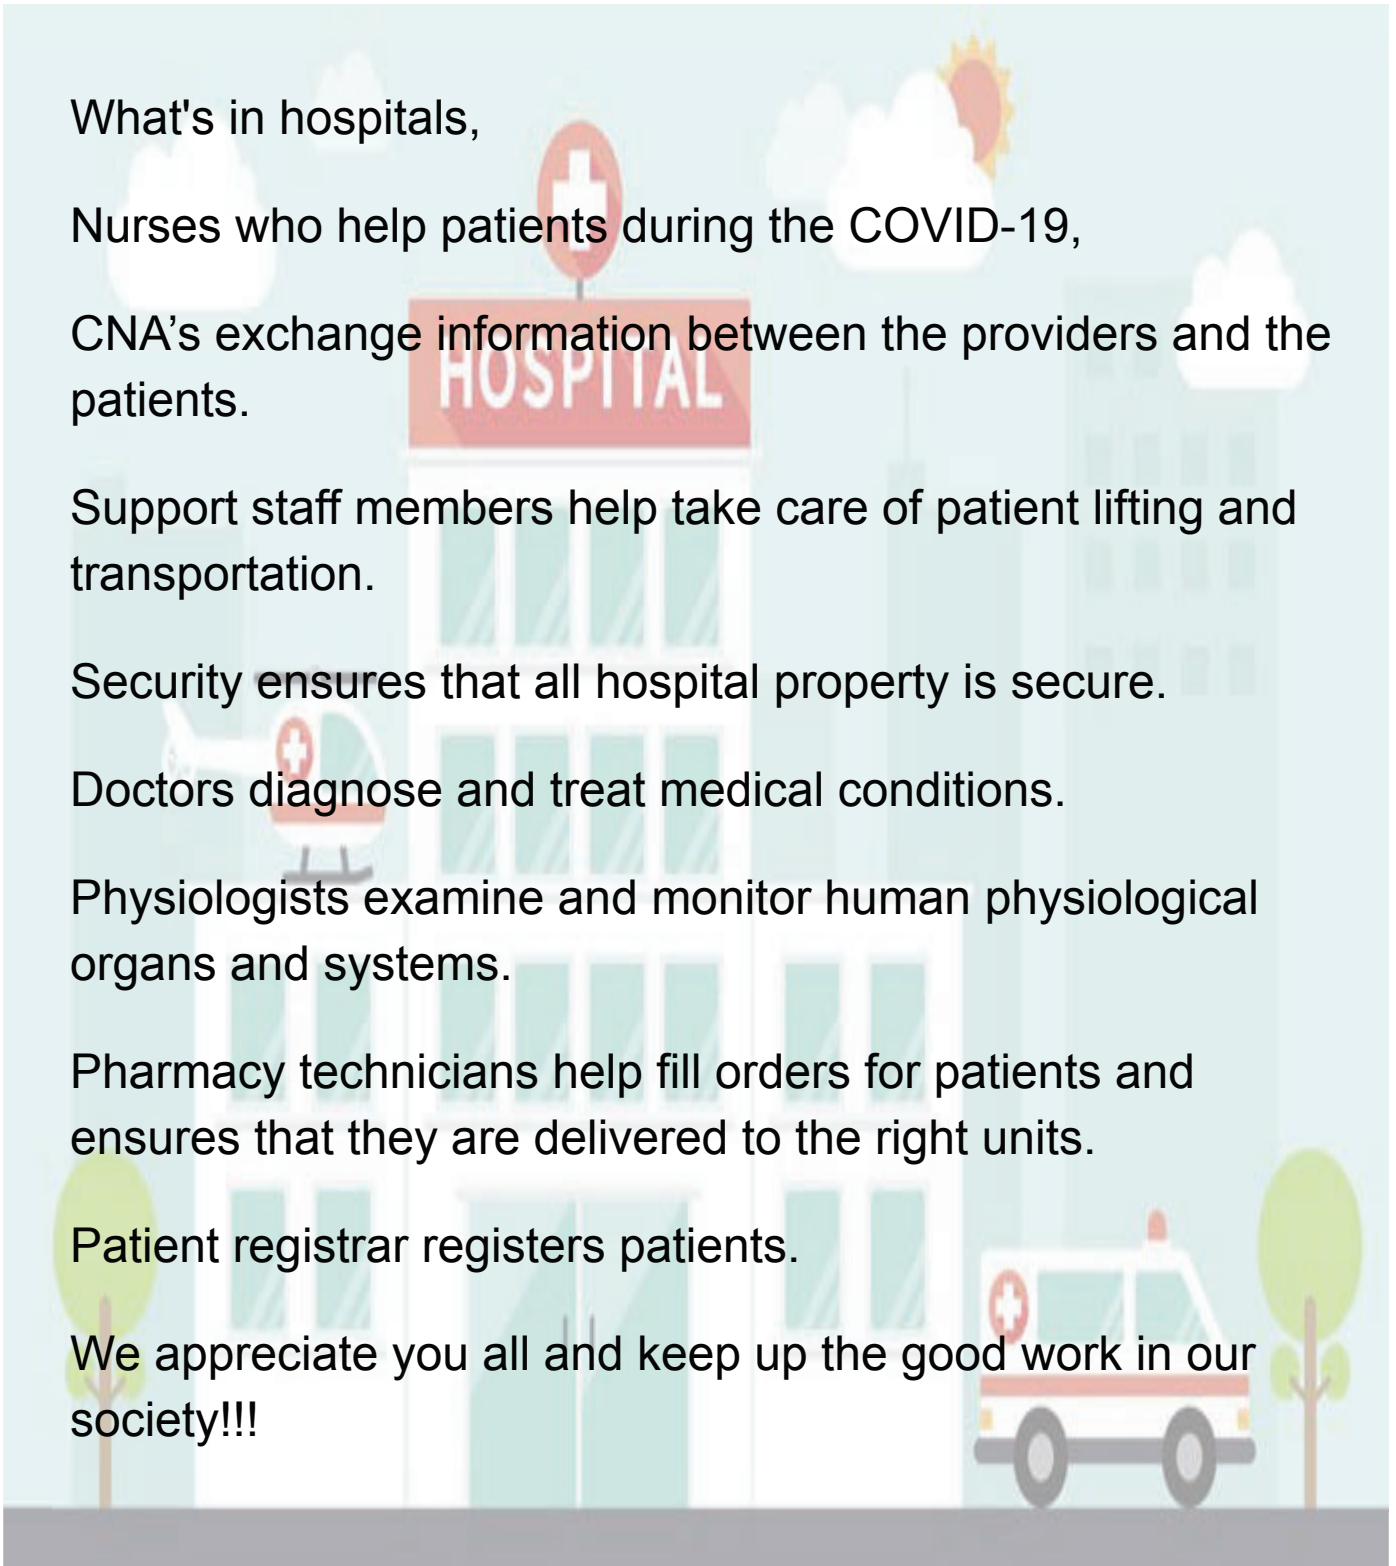

Doctors diagnose and treat medical conditions.

Physiologists examine and monitor human physiological organs and systems.

Pharmacy technicians help fill orders for patients and ensures that they are delivered to the right units.

Patient registrar registers patients.

We appreciate you all and keep up the good work in our society!!!

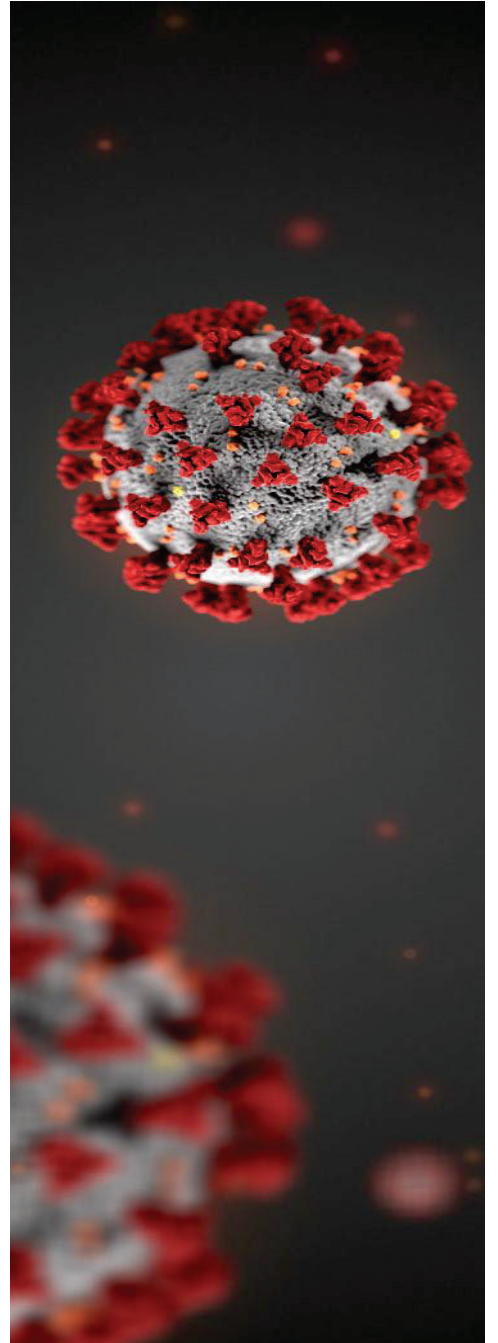

Blessing the Front Line  
By Jasmin

As the contagion spreads  
Fear covers the mind of the living  
As graveyards fill  
Yet no one to say, farewell  
For the fear of the people keep them away from each other  
So that the greedy taker didn't take their last breaths  
But hope still lingers in the shadows  
And the heroes still do exist  
The heroes of powers unimaginable  
Powers to heal, help and care for us  
They are the fire in the night  
The light that shines for our path  
For our heroes are our refuge  
And they will always be there to help

# Rona

By Ruthanne

To the doctors who work real hard  
We all appreciate you very so much  
Appreciation isn't a big enough word  
All you do even the little  
We love you for all you've been doing  
You've been kicking rona to the curb  
Keeping us safe from all she can do  
Thank you all very much

# GRATTITUDE

Heroes without capes,

Saving lives daily- while risking your own,

You're bravery is immense, reusing masks and more,

You work extra long shifts, intentions are warm.

Hearts are big, lots of love to give,

You have made several sick people live.

Your jobs are full of stress, sweat and tears poured in,

Everyone is thankful for the work that you give

Words can't describe the feeling that you bring

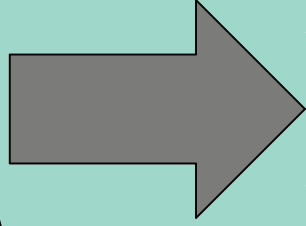

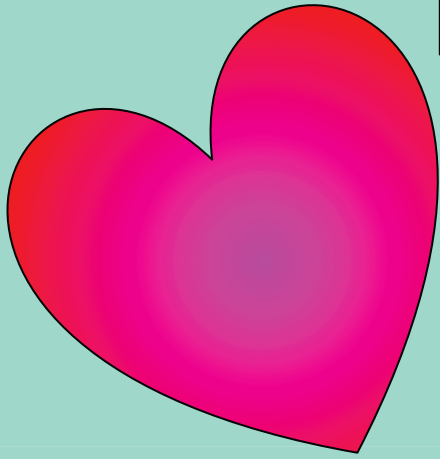

When you get into work, masks on your chin.

Keep doing what you do, doing it great.

We all have thank you's to give and relay.

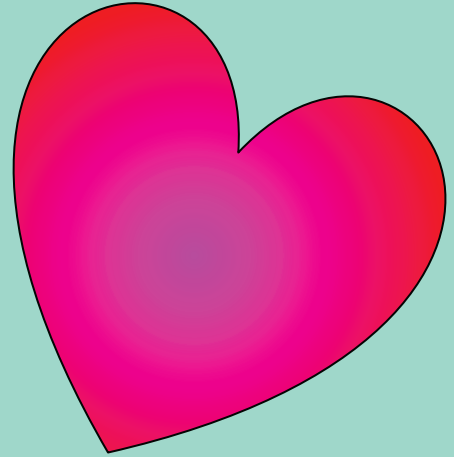

*thank you*

**THANK YOU**

# Doctors

By Reagan

Thank you to all doctors during this rough time  
For all of you hard work is worth a million of dime  
I know you do your best  
And that's all you can put to the test  
But at the end of the day your work is still prime

# Keeps Calm and Continue Strong By Malayna

When the world is caged,  
You challenge the day  
No matter the scare  
You're always there  
You're dedication  
WILL save the population  
So Thank you for what you do  
And please stay safe too  
You matter  
So please don't shatter  
Get up on your feet  
And when you feel weak  
Keep your head held high  
You are the reason we can survive

# Thank you

By Stephen

**Thank you**

**For when you**

**Saved us**

**Healed us**

**Warned us**

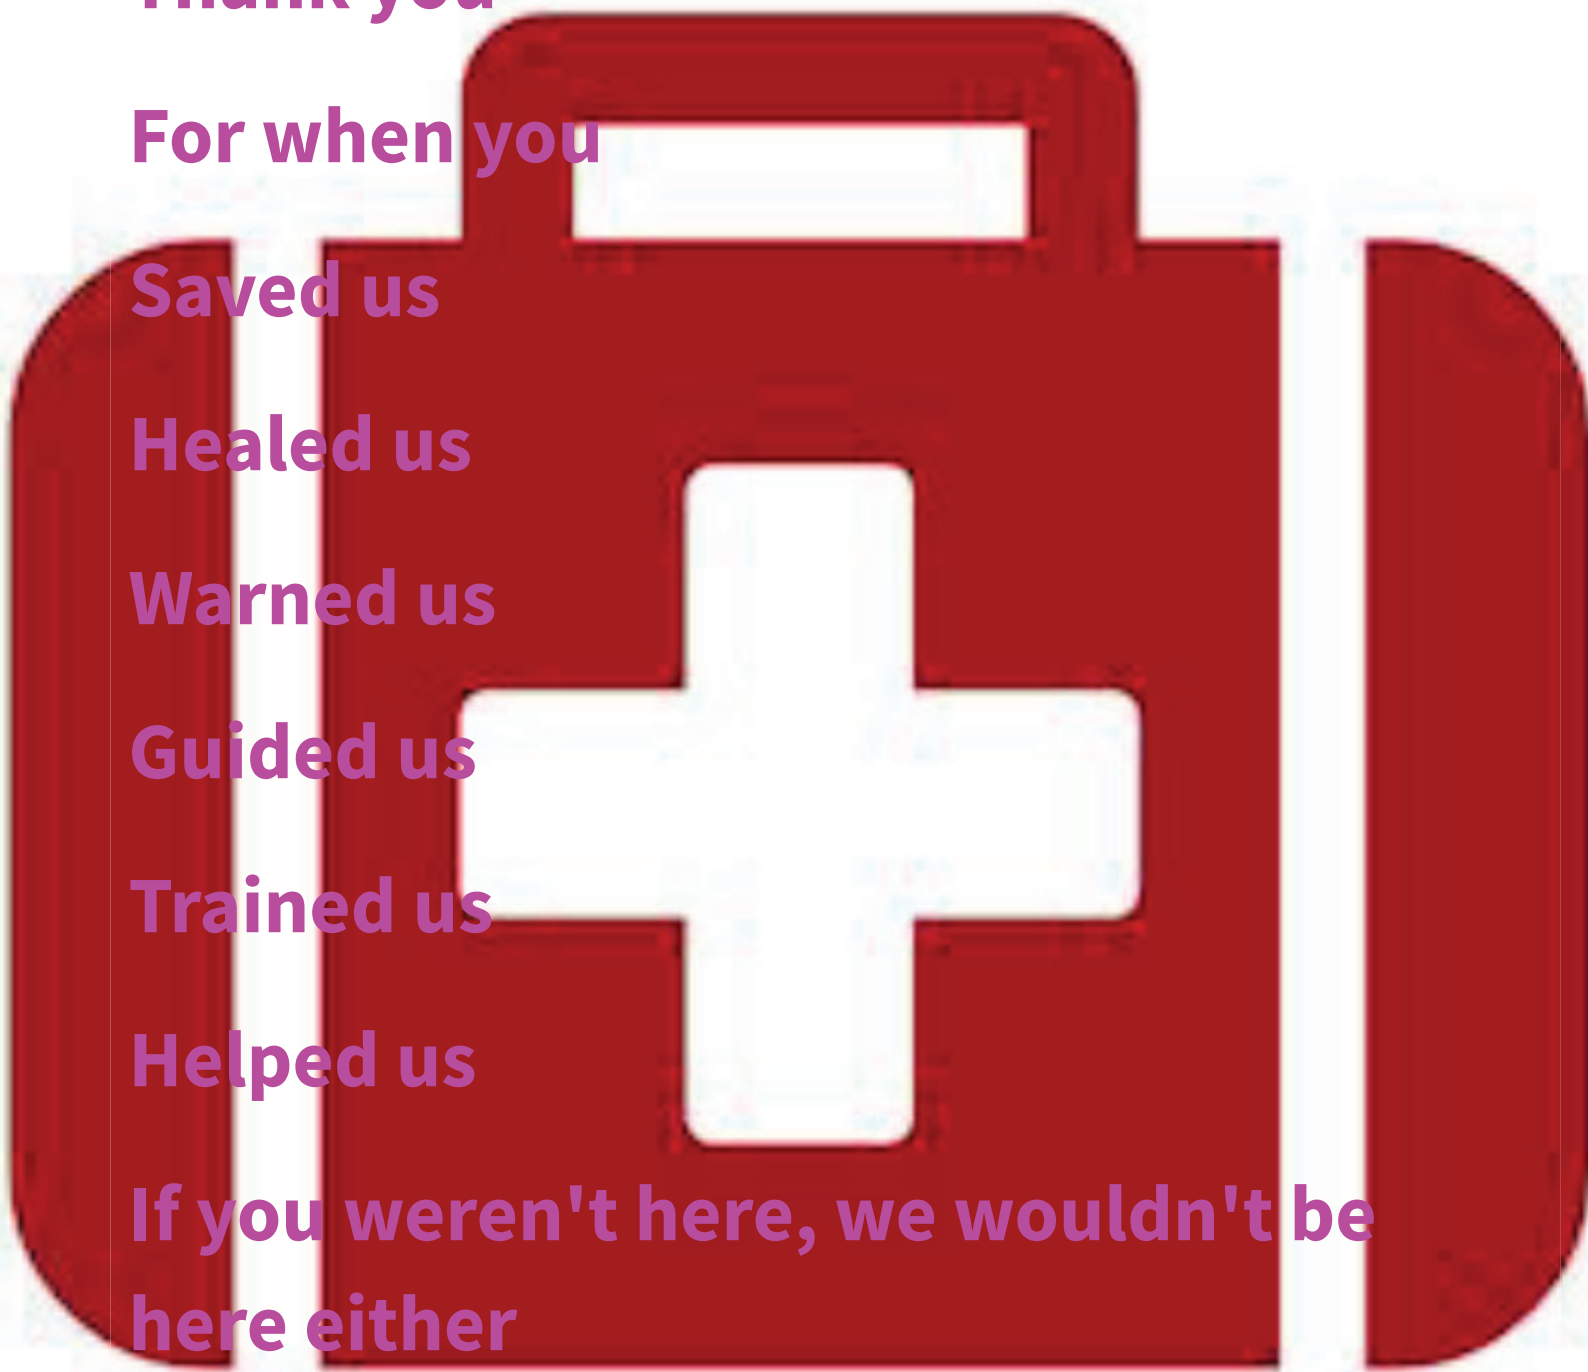

**Guided us**

**Trained us**

**Helped us**

**If you weren't here, we wouldn't be  
here either**

**Thank you.**

# Helpers

**By Stacey**

It means Caring, Helpful, Outgoing

It is like a growing flower

It is a hard-working honor

It is the memory of all day and night

You taught me always to help others

When someone is in need

It means to never give up on your job

# **Hold on, Hospital Staff**

**By Ayden**

**Hold on to co-workers**

**Even if they can't help**

**Hold on to your patients**

**Even if they don't want to be there**

**Hold on to friends**

**Even if they go**

**Hold on to trust**

**Even if you don't believe in yourself**

**Hold on to yourself**

**Even when times get hard hold on**

# **Stay Home and Stay Safe**

**By Austin**

**We will make through this we all have loved ones that we miss**

**stay home and stay safe cause you could kill someone today and not know it, you only get one chance at life so don't throw it away**

**Stay home stay safe because there are people who are fighting for their life and going through pain strife,who might not make it tonight**

**while you are sitting over here joking and having fun there are people with a daughter and son who are wondering if they will see tomorrow's sun.**

**I don't think it's funny but you are over making memes and money.**

**Then there are people who don't believe it but there are people dying tell me you see it.**

# Thank You

By Mubina

My heart goes out to the workers

The ones on the front lines

I don't know what you guys have had to go through

What you've had to see

And I never will

But thank you for all that you guys have done for us

Each and every one of you guys make an impact

Some people will never truly appreciate what you guys do

But I want you guys to know that I do

And so many other do

You guys work everyday to work to make this virus go away

It's hard to put into words how much you guys do

But i just wanted to say

I don't know who's going to read this

But thank you so so much

For everything you have done

# Healthcare Worker Poem

By Raely

**Dear nurses in my community**

***I'm thankful for your sacrifice***

***I know how hard this time is.***

***You are helping the world more than you know***

***With one step at a time lives are being saved***

***Risking your lives is a blessing indecises.***

***You guys have a ultimate superpower***

***Keep up the hard work and saving lives***

***During this time we will stick together.***

# Thank You

you*

# The Nurse

By Ellie

There once was a nurse

Who carried a purse

She was on her way

To save the day

And end the curse

# Where Thanks Is Due

By Noah

TO THOSE WHO FIGHT FOR US

TO WHERE COURAGE TAKES RANKS

TO WHERE WORK NEVER ENDS

We give YOU OUR THANKS

# Nurses

By Aevry

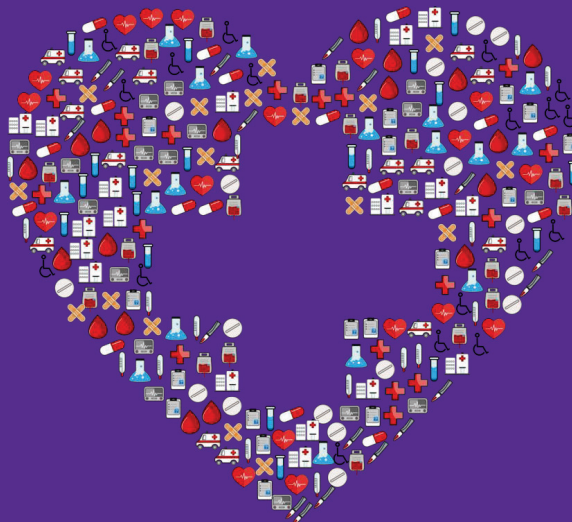

My dad has been a nurse since before i was born,

It's a profession i've always adored.

And i'm so proud to talk about all the people he's saved, and all the paths he paved.

Right now nurses like my dad are doing the same and i'm so thankful for every single name.

Thank you to nurses everywhere for all the lives you repair.

# What if the Sick Didn't Have Helpers

By Brogan

**What if** there were no doctors

There would be no one to help with ailments

**What if** there were no nurses

There would be no one to care for the ill

**What if** there were no security officers

There would be no one who felt safe

**What if** there were no healthcare workers

No one ill could feel happy or healthy

**So overall thank you all  
healthcare workers for  
helping people in need.**

# Thankful

*You are doing a great thing*

*Keeping us safe from this virus*

*I'm thankful for that*

*You got this*

# Blessing the Front Line

By Alivia

Gratitude is for thankfulness

I am thankful

To all the staff members

For working hard through this devastation

I am thankful

For your hard work

I am thankful

That you may have a choice to quit work  
but continue

I am thankful

That you encourage people

To be cautious and careful

With being sanitary and aware.

# Blessing the Frontline

# Superhero in a Mask

By Cheyenne

It takes a special person to do the job you do

Which is why I'm grateful for you being you.

Some days maybe rough

And you feel like you have not done enough.

But nothing compares to the smile you share

Which shows your compassion and care

So remember to many you are a superhero in a mask

And being there for the sick is quite a task.

So thanks again from the bottom of my heart

Please stay healthy and six feet apart.

# Face Mask

By Abby

I am a face mask

White as light

Made to keep you healthy

Everyone wants me

I'm made to keep you safe

I am a face mask

# Healthcare

By Peyton

Thank you healthcare workers for what you do

For slowing down the virus

Since this virus is wicked

You amazing people are stopping

This scary virus

# Thank You

By Brooklyn

**Thank you healthcare workers for all that you do**

**We don't know what we would do without you**

**You leave your home and family behind**

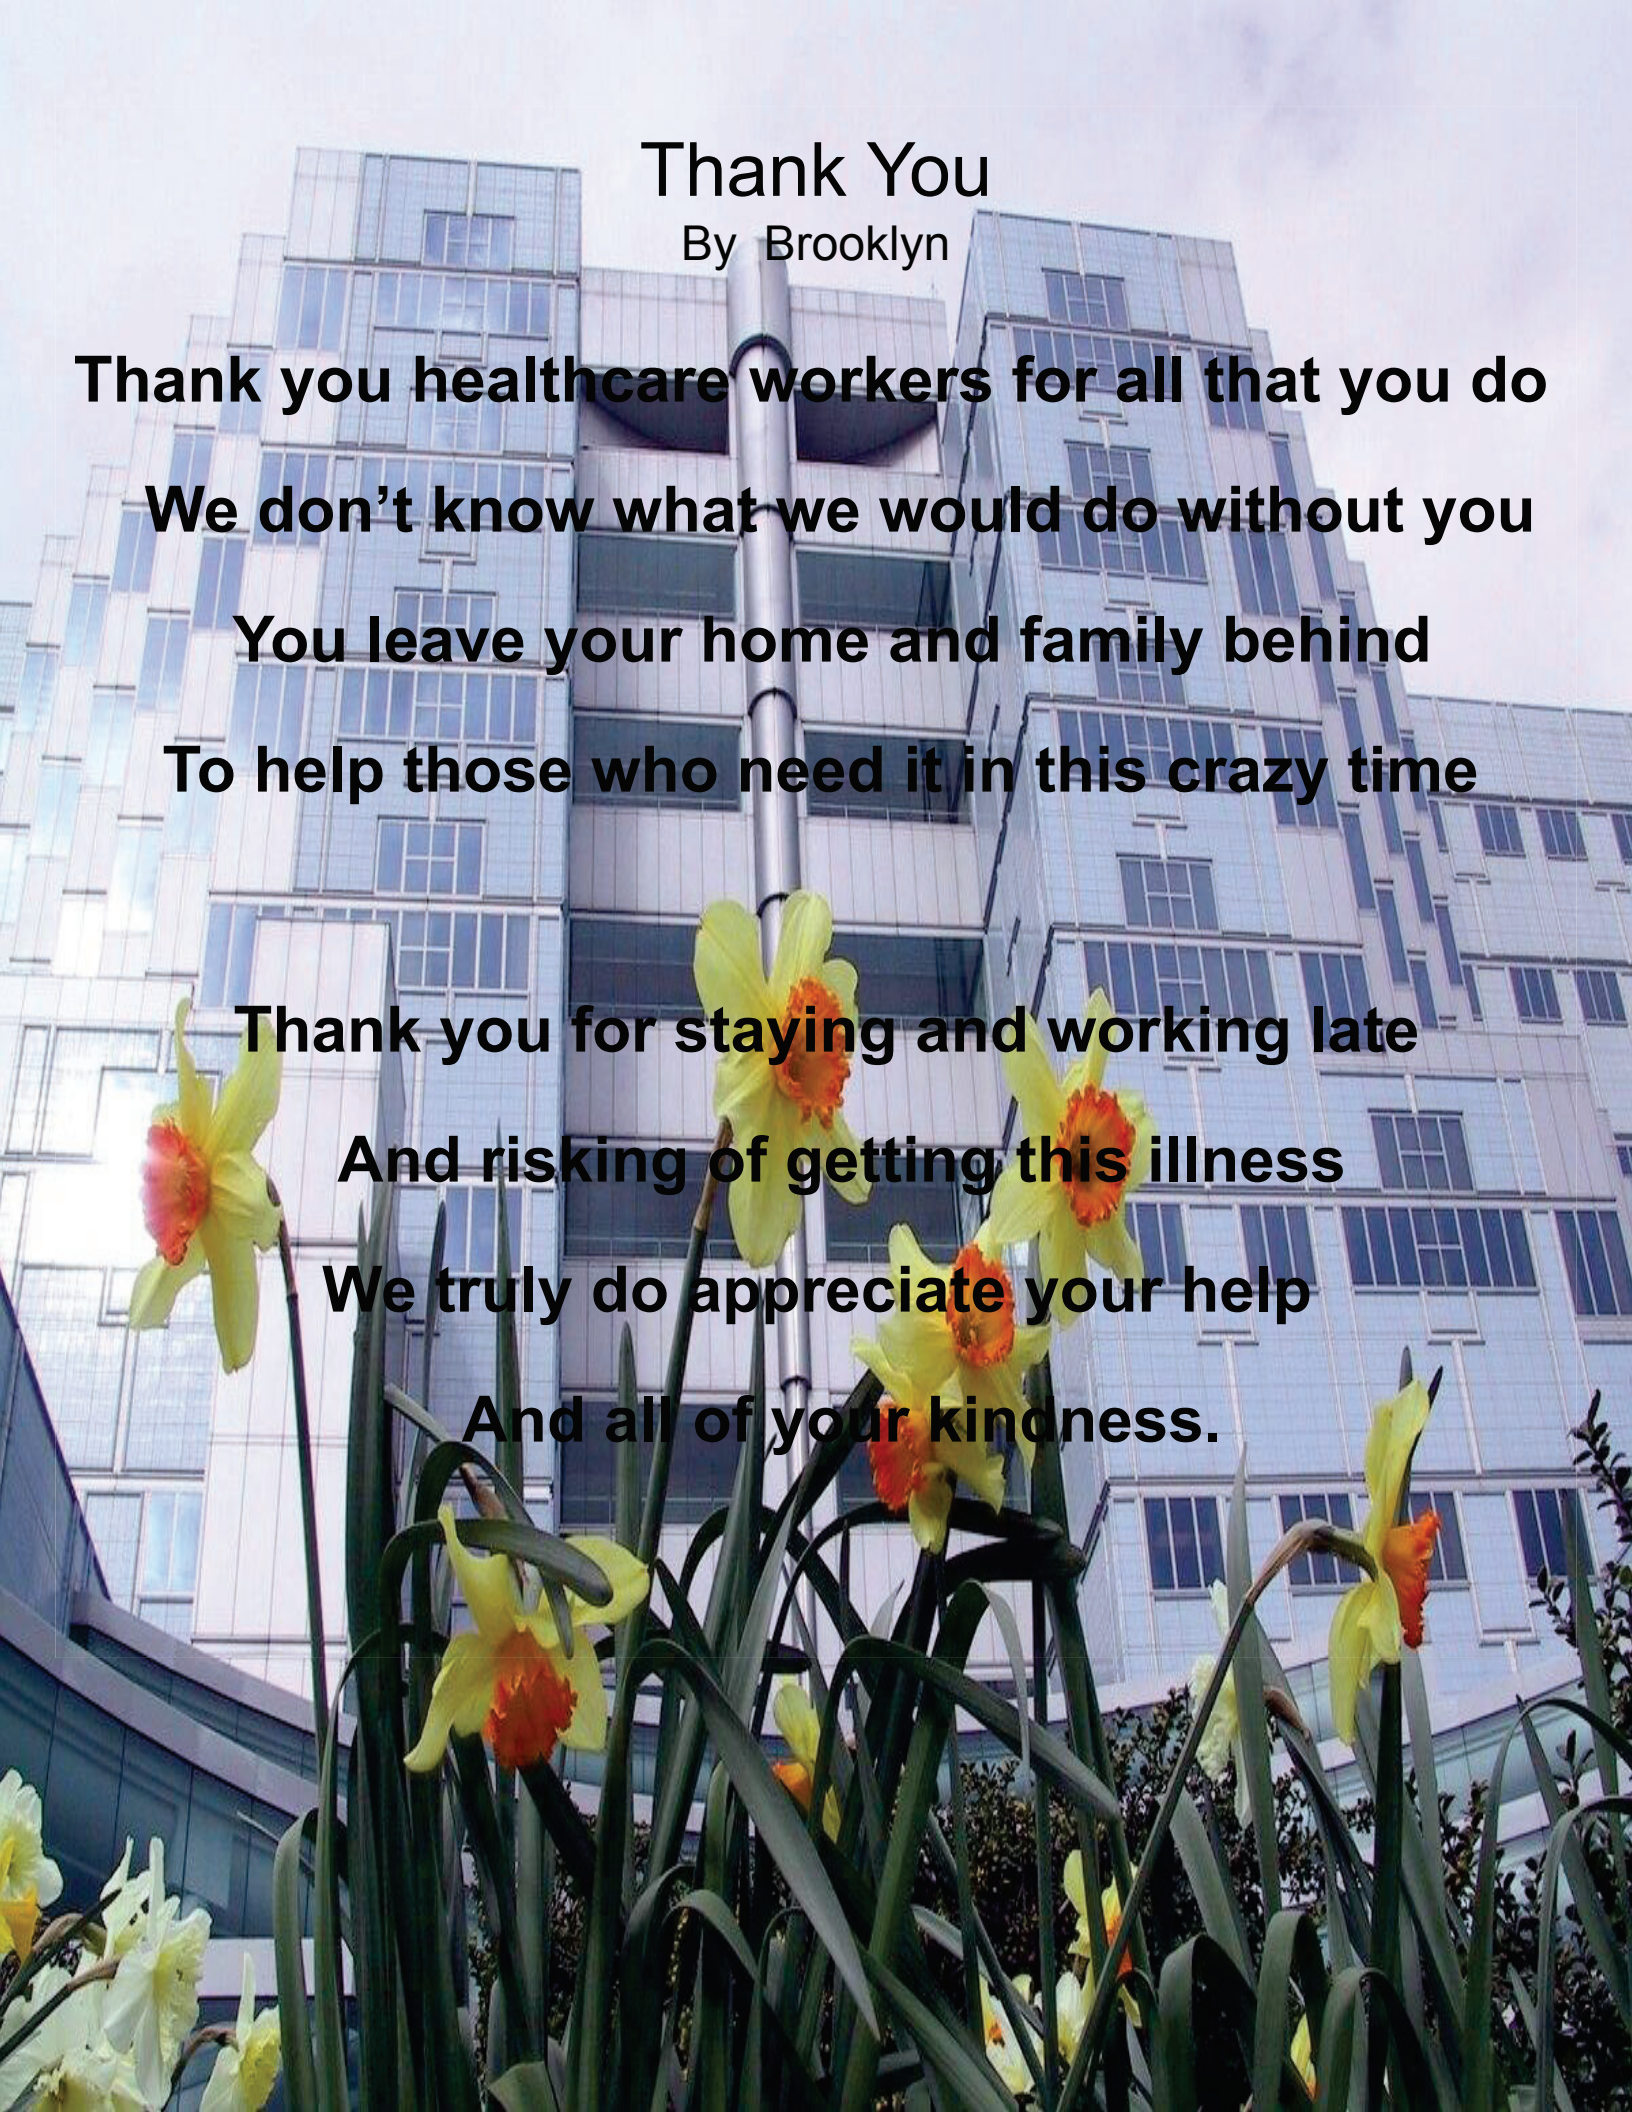

**To help those who need it in this crazy time**

**Thank you for staying and working late**

**And risking of getting this illness**

**We truly do appreciate your help**

**And all of your kindness.**

# -Doctors-

By Elvera

Doctors.

It means caregivers, hard workers, and patience.

It is like very light and bright.

It is like sitting by the bonfire at night looking at the stars.

It is the memory of the doctors before them.

Who taught me devotion and tolerance.

When they taught me peacefulness.

Their names are doctors.

It means people who keep on going to the very end, never giving up.
