Outpatient Infusion Service Request

Phone: (541) 902-6019 Fax: (541) 902-1649

Thank you for selecting our infusion services team to care for your patient. Please provide ALL information listed below to ensure that we can process orders and schedule your patient for treatment without delay.

Part A- Patient scheduling and contact information:

Patient Name (Last, First): _____Date of Birth: _____

Patient Contact Information and Phone Number (s): _____

Ordering Provider Name (Print): _____

Provider Clinic or Service Address: _____

Clinic or Service Phone Number: _____ Clinic or Service Fax Number: _____

Diagnosis (include ICD 10 codes): _____

Medication and Service Requested- list J-Code/ CPT code if known: _____

Date Service is Requested to Begin: _____ **Date Service is Expected to End**: _____

Order will expire 1 year from date of provider signature unless "date service is expected to end" is earlier.

Part B- Insurance and Prior Authorization. Any non-PeaceHealth provider must obtain prior authorization prior to service. *Attach a copy of authorization documentation received from insurance payer when submitting orders.*

Insurance (Payer) Company: _____

Prior Authorization Number and Conditions: _____

Prior Authorization Expiration Date: _____

Insurance (Payer) Contact Phone Number: _____

Part C- Elements needed to guide medication therapy are included with request for service:

☐ Orders and instruction (use the PeaceHealth approved ordering form if you are not a PeaceHealth provider) are complete and include provider signature at the bottom of each page. Check the boxes of ALL orders you would like to activate.

☐ For blood products, PeaceHealth Blood and Transfusion Consent form is signed and dated by the provider and the patient.

If information is located outside of PeaceHealth's electronic medical record system attach the following:

☐ A list of current medications reconciled by patient provider is available and includes a list of known allergies.

☐ Recent progress notes from ordering provider.

☐ A copy of relevant laboratory results and other appropriate supporting documentation.

IMPORTANT MESSAGE TO PROVIDERS: To reduce delays in treatment and added phone calls, you may participate to utilize PeaceHealth preferred medication formulary options by signing this document. A clinical pharmacist will adjust orders to align with PeaceHealth medical staff approved medication formulary options, policies, and procedures.

I agree to utilize PeaceHealth preferred medication formulary options, policies and procedures that have been authorized by PeaceHealth Medical Staff. This agreement will be issued for the duration of active orders contained within this treatment plan.

Outpatient Infusion Therapy Plan

All Pre-Selected Boxed Orders Are Initiated by Default Unless Crossed Out by Practitioner. All Boxed Orders Require Practitioner Check to be Initiated.

Heading	Content
For Admission to Service	**Provider Instruction-** review information below and address requirements for admission to service: 1. Provider has verified that patient is up to date with all immunizations and screened patient for history of chronic infection and/or liver disease prior to initiation of vedolizumab therapy. 2. Order CBC with differential, CMP, CRP, and ESR prior to patient starting treatment. 3. Provide patient with the FDA approved medication guide for vedolizumab (Entyvio).
Labs	☒ CBC with automated differential once prior to beginning treatment and every _____ weeks. ☒ Comprehensive metabolic panel once prior to beginning treatment and every _____ weeks. ☐ C-reactive protein (CRP) once prior to beginning treatment and every _____ weeks. ☐ Sedimentation rate (ESR) once prior to beginning treatment and every _____ weeks. ☒ Instructions – Provider approves to release and draw labs 2 days pre and post treatment date.
Supportive Care	☒ **Vedolizumab (Entyvio) IV infusion**: 300 mg in 250 mL of 0.9% sodium chloride over 30 minutes **Select Frequency**: ☐ Initial doses administered at 0, 2 and 6 weeks followed by a maintenance infusion every 8 weeks ☐ Maintenance infusion every 8 weeks ☐ Maintenance infusion every _____ weeks (indicate frequency) **Additional order instruction:** ☒ After infusion is complete, flush with 30 mL of sterile 0.9% sodium chloride.
Nursing Orders	☒ Assess vital signs before and after infusion. Patient may be discharged 15 minutes post-infusion if there is no evidence of adverse reaction and vital signs are stable.
Nursing IV Access and Maintenance	**Select the most appropriate option below:** ☒ **Insert PERIPHERAL IV** as needed and flush (unless provider selects option for a central line). ☒ Sodium chloride 0.9% (NS) flush 10 mL IV once as needed for line care ☐ **Access and use NON-PICC Central Line/CVAD** ☒ Initiate Central Line (non-PICC) maintenance protocol ☒ Sodium chloride 0.9% (NS) flush 10 mL IV as needed for line care, before and after medication administration, at discharge, and at de-access (sterile NS for Port-a-Cath access) ☒ Sodium chloride 0.9% (NS) flush 20 mL IV as needed for line care post lab draw. ☒ Heparin, porcine (PF) 100 unit/mL flush 5 mL IV as needed for line care, for de-access ☒ Alteplase (Cathflo) injection 2 mg intra-catheter as needed for occluded central line catheters- For clearing central line catheter. Add 2.2 mL sterile water for injection to vial; let the vial stand undisturbed to allow large bubbles to dissipate. Mix by gently swirling until completely dissolved; do not shake. Final concentration: 1mg/mL. Retain in catheter for 30 minutes to 2 hours; may instill a second dose if occluded. ☐ **Access and use PICC Central Line/CVAD** ☒ Initiate PICC maintenance protocol ☒ Change PICC line dressing weekly and as needed ☒ Sodium chloride 0.9% (NS) flush 10 mL IV as needed for line care, and before and after medication administration ☒ Sodium chloride 0.9% (NS) flush 20 mL IV as needed for line care post lab draw. ☐ Alteplase (Cathflo) injection 2 mg intra-catheter as needed for occluded central line catheters- For clearing central line catheter. Add 2.2 mL sterile water for injection to vial; let the vial stand
