ANNUAL REPORT

CELEBRATING 25 YEARS

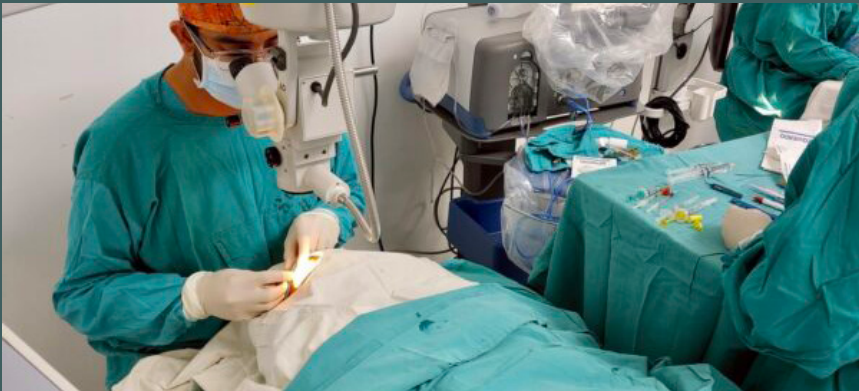

PazSalud
PeaceHealth's Medical Mission in El Salvador

PazSalud was created in 2000 by PeaceHealth and the Sisters of St. Joseph of Peace (CSJP) as a collaborative international program designed to share the gifts of both organizations with patients living in poverty in El Salvador.

To carry out its missions, PazSalud forms teams of Salvadoran medical professionals to deliver healthcare in the country. With crucial in-kind donations from various international partners, PazSalud is able to provide dignified missions to thousands of senior patients.

Social justice, healthcare equality and compassionate care define PazSalud. PeaceHealth and the CSJP, through the work of PazSalud, dedicate their efforts to creating a better world by providing the quality care to the most vulnerable patients – both in the Pacific Northwest and beyond the US borders.

Optometry Missions

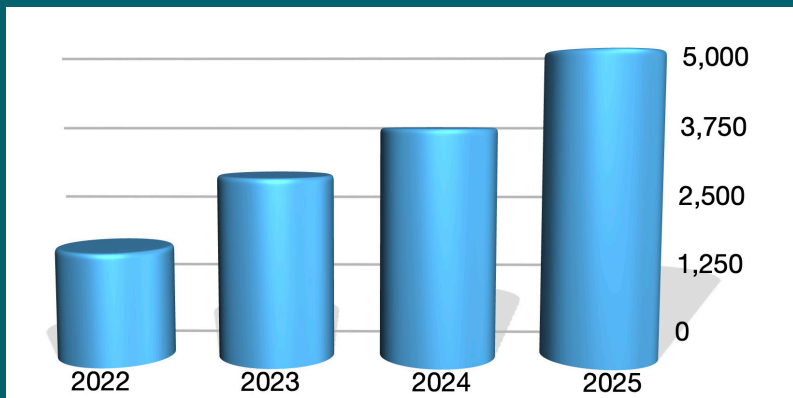

PazSalud partners with domestic medical professionals and international organizations, like the U.S. Lions Clubs, to serve thousands of marginalized Salvadorans every year by providing them with eye exams, glasses and cataract detection; vital care to which our patients have no access.

5,197 patients

4,811 glasses prescribed

661 cataract referrals for surgery

11,172 total optometrist hours donated

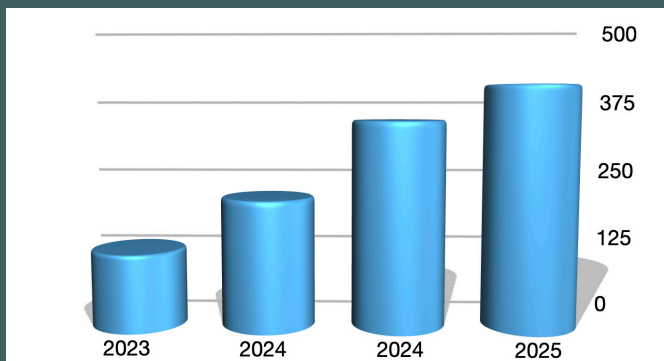

Cataract Missions

PazSalud delivers quality charitable cataract missions to hundreds of needy Salvadorans every year by partnering with El Salvador's public hospitals who provide the medical staff and local infrastructure while SEE International and Alcon provide the surgical supplies. Through the power of this team PazSalud can bring the gift of sight to patients who would otherwise not have access to cataract surgery.

403 patients

264 total ophthalmologist hours donated

\$575,000 donations from SEE International, Alcon and PazSalud for 2025 surgery missions

Donations

Thanks to generous donors who support our critical work in El Salvador, PazSalud is able to have a much larger impact than otherwise possible. We use donation dollars to help extend the scope of our core programs and enhance the care we provide in every way. PazSalud also proudly uses donations to provide medical scholarships to young Salvadorans aspiring to careers in healthcare and to support local organizations and families striving to succeed.
