Overview

House Resolution One (H.R.1) was signed into law on July 4, 2025, and contains numerous provisions that impact Apple Health (Medicaid) eligibility, including non-citizen coverage.

These changes do not affect:

- Children age 18 and under
- Pregnant individuals
- Emergency services (AEM)
- Apple Health Expansion

What's changing

H.R.1. includes changes related to:

- Eligibility for some non-US citizens more frequent eligibility renewals for Apple Health for Adults
- New federal work requirements for some adults
- Shorter retroactive coverage periods
- Additional verification requirements required by federal law

Implementation will occur phases beginning in 2026–2027.

Timeline of Changes

Customers will receive advance notice prior to any required action

Most H.R.1. changes begin January 1, 2027

Noncitizen changes coming

Beginning October 1, 2026, federal Medicaid eligibility rules are changing that will impact eligibility for certain Apple Health (Medicaid) programs.

Section 71109 of H.R.1. changes the definition of qualified noncitizen to include only:

- Individuals admitted as lawful permanent residents (LPR),
- Certain Cuban and Haitian immigrants, and
- Compact of Free Association (COFA) islanders

Individuals no longer eligible will lose coverage September 30, 2026.

Exception

Children and pregnant individuals continue to be eligible for Apple Health regardless of immigration status if they meet all other requirements.

Apple Health Programs

Individuals who lose coverage may still qualify for certain coverage types

Individuals who lose coverage due to the H.R.1 changes may still qualify for certain coverage types if they meet all other eligibility program requirements, specifically:

- Apple Health for Pregnant individuals
- After-Pregnancy Coverage (APC)
- Emergency Medical (AEM)
- Apple Health Expansion (AHE)*
- Family Planning Only (FPO)
- Medical Care Services (MCS)
- Qualified health and dental plans with savings through Washington Healthplanfinder

Medicaid Work Requirements

and 6-month renewals

Under Medicaid work requirements, some adults must show they are working or engaged in other activities as a condition of enrolling in and renewing their Medicaid coverage every 6 months.

Who is subject to Medicaid Work Requirements?

Medicaid expansion adults ages 19-64

How do states verify compliance?

States must rely on data (as opposed to requesting documentation/information from individuals) to the greatest extent possible.

What are the consequences of noncompliance?

Individuals may have their applications for Medicaid denied or their coverage terminated at renewal.

How can an individual satisfy Medicaid work requirements?

They must do one of the following:

- Meet an exclusion
- Meet an exception
- Meet a qualifying activity:
 - 80 hours/month of work, work program, or community service
 - Educational enrollment at least half-time
 - Any combo of above activities for a total of 80 hours/month
 - Income of at least \$580/month (with special consideration for seasonal workers)

Work requirement exclusions

Some individuals do not need to meet work requirements because they meet a “current month exclusion.”

- Pregnant or in 12-month postpartum period
- Under age 19
- Foster youth or former foster youth under age 26
- American Indian/Alaska Native (AI/AN) and certain Tribal populations
- Parent, caretaker, or guardian of a child under age 14
- Household member of SNAP (food assistance) or TANF (cash assistance)
- Parent, caretaker, or guardian of an individual with a disability
- Entitled to Medicare Part A or B
- Incarcerated or within 90 days post-release period
- Medically frail
- Alcohol or substance use disorder treatment (AUD/SUD)
- Disabled veteran with 100% total disability
- In short-term hardship

Scan QR for
more info

Short-term hardship exemptions

There are four short-term hardships.

Two hardships you must request, while two are automatic when you apply.

Hardship	Automatic/Requested
Travelling outside your community for care related to a serious or complex condition for yourself or your dependent.	Requested
Spending part or all of a month in an inpatient hospital, nursing home, ICF/IID, inpatient psychiatric hospital services or other services of similar acuity.	Requested
Living in an area where the President has declared a disaster.	Automatic
Living in a county with an unemployment rate that is 1.5 times the national unemployment rate.	Automatic

Verification

Self attestation will be accepted through 2027.

Beginning January 1, 2028, states will first use their available data sources to verify work requirements, exclusions and exemptions.

If the states are unable to verify information with the data sources, additional documentation will be requested.

Apple Health for Adults
