

FOR MEDICAL PROFESSIONALS

Wound Care Center: Specialized Wound and Ostomy Services

Every wound has a unique set of circumstances. Our Wound Care Center is equipped and staffed to address them all. Our comprehensive, team approach includes multiple medical specialties including hyperbarics, infectious disease specialists, certified wound specialists and a lymphedema specialist. All Wound & Ostomy staff are certified through the Wound, Ostomy and Continence Nursing Certification Board to provide care for all ages, pediatric through geriatric. Wound and ostomy specialists work as part of the health care team in all hospital departments, outpatient clinics and contract wound services in the community.

WOUND CARE SERVICES

Our certified wound and ostomy specialists provide inpatient and outpatient services, including:

- Thorough wound assessment and evaluation of the barriers to healing
- Individualized treatment planning based on best practice protocols
- Advanced wound treatment modalities, including hyperbaric oxygen therapy, tissue substitutes, and negative pressure wound therapy
- Pre- and postoperative ostomy teaching and ostomy site marking
- Pressure ulcer prevention, treatment and incident monitoring
- Specialty support surface management

Patient Benefits

- Our dedicated staff help patients understand the process of wound healing, explain the therapies used and provide support throughout the healing process.
- The primary care physician remains part of the treatment team and is informed of patient progress throughout treatment.
- The Wound Care Center is supported by the full resources of PeaceHealth Sacred Heart Medical Center to benefit patients, including the specialists at our Hyperbaric Center.
- The Wound Care Center provides mission-based, patient-centered, compassionate care.
- Board-certified ostomy specialists are available to support and care for patients facing ostomy surgery or experiencing problems with ostomy management.
