Traveling abroad?
Don’t forget to plan ahead.

Travel Health Clinic

PeaceHealth Medical Group
It is recommended that you make an appointment at the PeaceHealth Medical Group Travel Health Clinic at least 4 – 6 weeks before your trip. Most vaccines take time to reach efficacy and many must be administered as a series over a period of days or weeks.

Adults and children have different vaccination needs when traveling internationally. PeaceHealth Medical Group also offers pediatric travel consultations to meet your needs.
Call today for your appointment:

**Angela Bradley, NP**
