Supporting Institutes at Sacred Heart Medical Center

An institute is an interdisciplinary care model, where clinicians unite across their own specialties to best serve patients. Sacred Heart is encouraging collaboration, implementing minimally invasive techniques and saving lives with our state-of-the-art institutes. Your generosity can help us continue to lead the way.

The Oregon Cancer Institute

Specialized expertise throughout the Pacific Northwest

Cancer can be a devastating diagnosis for patients and their families. At Sacred Heart, we understand the importance of advancing this area of care, to the benefit of countless patients in our community and beyond. Along with our partners, we have already been leading the region in the full spectrum of cancer services. In 2008, we began planning for the Oregon Cancer Institute, which will consolidate and grow our existing services, support collaboration and research — and lead to tomorrow’s breakthroughs, today.

The Gerontology Institute

Continuing to lead the way in care for older adults

With the Baby Boomer Generation entering older adulthood, in Lane County alone, there will be an 85% increase in adults over age 65 by 2025. The Gerontology Institute — a nationally recognized center in understanding and meeting the health, social, emotional and functional needs of older adults — is committed to addressing this influx of older patients. Our unique clinical care, community collaboration, research and education combine to make the Gerontology Institute the only center of its kind in Oregon.

Oregon Neurosciences Institute

Our region’s premier provider for neurological care

The Oregon Neurosciences Institute at Sacred Heart Medical Center is a leading regional provider of neurological care, offering a full range of services for patients and their families. The Institute unites board-certified physicians, nationally-accredited rehabilitation and stroke programs, and state-of-the-art medical technology to provide expert, seamless care. Patients benefit from a dedicated team of specialists working together to determine the best treatment options.

**OREGON HEART & VASCULAR INSTITUTE**

The premiere heart and vascular center in the Pacific Northwest

Heart disease is the leading cause of death for both men and women in America. It doesn’t have to be. With the Oregon Heart and Vascular Institute, Sacred Heart is committed to fighting this serious disease – using ever more minimally invasive techniques and state-of-the-art technology. OHVI is the only program of its kind in Lane County, and it’s leading the region with:

- Advanced, patient-centered clinical services.
- Evidence-based medical excellence.
- Clinical research and education.
- Quality outcomes based on national cardiovascular benchmarks.
- Compassionate care that leads to a unique, outstanding patient experience.

**RIVERBEND SURGICAL INSTITUTE**

The premiere surgical institute in the Pacific Northwest

The surgeons and staff at Sacred Heart Medical Center already rank among the state’s best when it comes to groundbreaking surgical procedures (many of which are performed with the most advanced, minimally invasive techniques). We strive to build on our past and present success with the RiverBend Surgical Institute. With state-of-the-art clinical services, medical excellence and quality outcomes — not to mention a patient experience that is truly exceptional — the RiverBend Surgical Institute stands to become the premier center of its kind in the Pacific Northwest.

**WOMEN’S & CHILDREN’S INSTITUTE**

A regional leader in women’s and children’s healthcare

At Sacred Heart, we know that our community’s future depends on the well-being of children and families. That’s why we are committed to growing our Women’s and Children’s Institute into the premiere regional referral center for women’s and children’s health. With an already well-defined referral network for both High Risk Obstetric and Neonatal Specialty Care (Sacred Heart has the largest Neonatal Intensive Care Unit between Portland and San Francisco) – combined with leading pediatric care – we’re well on the way to realizing that goal. Your generosity can play a huge role in helping us continue to advance, as we provide exceptional medicine and compassionate care every time, every touch.
