

# Tips/Strategies to Facilitate Evaluation

## Pre-Clerkship Planning

- Review course materials and evaluation forms from medical school
- Plan ways to observe and measure student behaviors
- Check in with student
  - Review form and your role in grading
  - Consider student self-assessment

## Core Clerkship Activities

- Observe and provide **regular**, ongoing student feedback
- Use system to record student observations
- Consider mid-clerkship review *especially* if *deficiencies are identified*

## End of Clerkship Summary

- Review evaluation criteria and form
- Review student performance data
- Schedule and conduct final evaluation session with student
