## Partnerships

### Oregon Health & Science University (OHSU) Center for Medical Education & Research at Sacred Heart Medical Center

A medical education collaborative program that helps address the physician shortage in Oregon, especially in rural areas. Since the program began in 2006, over 600 students have come to our Regional Medical Campus for training.

### Kaiser Permanente Lane County Community Health Collaboration

In 2017, Kaiser Permanente Northwest and PeaceHealth began a jointly funded initiative to address Lane County community health and access to care needs.

### School District 4J

PeaceHealth Medical Group and Eugene School District 4J are partnering on school health centers.

## Community Benefit

July 1, 2016 – June 30, 2017

\$1,063,000 Charity Care	\$6,246,000 Unpaid Cost of State Programs	\$7,317,000 Total Community Benefit
-----------------------------	--	--

## History

In 2016, the community celebrated the hospital's 80th anniversary of serving central Oregon. SHMC at University District had been the largest hospital in the area until SHMC at RiverBend opened in 2008. Most general services moved to the larger hospital and University District is now a specialty services hospital with an emergency department, the Oregon Rehabilitation Center and Behavioral Health Services.

## Geography & Economy

Eugene-Springfield is the second-largest metropolitan area in Oregon. Home of the University of Oregon, Eugene boasts cultural amenities typical of much larger cities from the Jordan Schnitzer Museum of Art to the world-famous Oregon Bach Festival. PeaceHealth Oregon is the largest employer in Eugene.

# Sacred Heart, Lane County Community Health Overview

- ✓ Access to affordable healthcare for rural, low-income and vulnerable communities

## Major Health Problems/Gaps, Key Health Indicators & Strategies

Pillar	Major Health Problems/Gaps*	Key Health Indicators <sup>^</sup>	Prioritized Evidence-Based Strategies
Healthy, Active Living	<ul style="list-style-type: none"> <li>• <b>Adult and teen substance abuse and mental health issues</b></li> </ul>	Excessive drinking among adults is significantly higher than the state. Mental health rates among youth are worsening, particularly in the area of depression and consideration of suicide.	<ul style="list-style-type: none"> <li>• Increased access to mental health services</li> <li>• School-based early intervention programs</li> </ul>
Child & Family Wellbeing	<ul style="list-style-type: none"> <li>• <b>Maternal/child health</b></li> <li>• <b>Mental healthcare for pediatric patients</b></li> </ul>	High school graduation rates are lower than the state average. Other areas of focus are on increasing first trimester prenatal care and lowering the percentage of women who smoke during pregnancy.	<ul style="list-style-type: none"> <li>• <i>Early Pathways</i> home-based mental healthcare for children</li> <li>• Preschool programs with family support services</li> </ul>
Health Delivery Systems	<ul style="list-style-type: none"> <li>• <b>Lack of mental healthcare</b></li> <li>• <b>Lack of providers that accept Medicaid, Medicare, and uninsured</b></li> <li>• <b>Access to healthcare for rural and low-income communities</b></li> </ul>	Important issues include targeting health insurance inequities. There are significant differences in insured rates by race/ethnicity and preventive care inequities among Medicare beneficiaries with wide disparities among white and Hispanic/Latinos.	<ul style="list-style-type: none"> <li>• Integration of behavioral health and primary care</li> <li>• Community healthcare center expansion</li> </ul>
Equity	<ul style="list-style-type: none"> <li>• <b>Access to affordable healthcare for low-income and vulnerable communities</b></li> <li>• <b>Health disparities</b></li> </ul>	High income inequality. Nearly half of the population lives in poverty or is employed but cannot afford the cost of basic household expenses. Nearly one in five residents live with 'severe housing problems,' including a high housing cost burden, overcrowding, or lack of kitchen or plumbing.	<ul style="list-style-type: none"> <li>• School-based health centers</li> <li>• Patient financial incentives for primary care</li> </ul>
